## Education

### KIET Group of Institutions, AKTU

Bachelors of Technology in Computer Science and Engineering CGPA 7.76 (upto 5 sems)

Delhi -NCR ,Ghaziabad

Nov 2021 - July 2025

### Kendriya Vidyalaya BEG and Center, CBSE

XII 84 percent

Pune, Maharashtra

April 2019 - March 2020

## Experience

### WebStack Academy (Node.js,React.js,Express.js,MongoDB)

Bangalore

MERN stack developer intern

July 2024 - Present

- Successfully implemented and deployed interactive web applications using MongoDB, React.js, and Express.js.
- Implemented efficient routing mechanisms to handle high-volume user traffic and seamlessly integrated Stripe's payment gateway via REST API for secure transactions.
- Orchestrated weekly stand-up meetings to assess project milestones, identify roadblocks, and streamline communication among developers; this initiative led to a notable 20% increase in overall project completion efficiency.

### Java Mini Internship

Delhi-NCR

Java developer

July 2022 - Aug 2022

- Designed a console-based cafeteria management system in Java, using OOP to manage 50+ menu items with features like categorization and order tracking.
- Improved user interaction through effective management of menu items and order processing.
- Authored an ML-based literature review, analyzing 15 academic papers to assess machine learning trends with object-oriented design.

## Projects

### Apex Estates (React.Js,Javasc,MongoDB,Express.js,Socket.io) - [Visit S.Code](#) Aug 2024 - Sept. 2024

- Developed a fully responsive real estate app using React.js, SCSS, and JavaScript, featuring property search, listings, and interactive maps with React Leaflet, supporting over 1000 property listings.
- Implemented an image slider displaying up to 5 images per property and a user profile page for managing favorites and account details.
- Launched a Socket.io-based chat system that connected users with agents for immediate assistance; backend powered by Node.js and MongoDB, now handling an average of 500+ user inquiries daily.

### Ochi landing page UI (React.js,Tailwind CSS,Locomotive,GSAP) - [Visit S.Code](#) June 2024 - July 2024

- Used Locomotive Scroll for smooth, parallax scrolling and synchronized GSAP animations for engaging visual effects on scroll.
- Styled the landing page using Tailwind CSS for a consistent, mobile-friendly design with reusable utility classes.
- Structured the page into modular React components, ensuring maintainability and dynamic animation triggers based on scroll events

### E-Commerce Website (React.js,Express.js,SCSS,MongoDB) - [Visit S.Code](#) April 2024 - May 2024

- Built a fully functional e-commerce website using React.js, Node.js, and SCSS, supporting over 500 products across multiple categories.
- Wrote some REST API for data management, achieving 99.9% uptime for seamless product browsing and transactions.
- Leveraged MongoDB for real-time data syncing and optimized SCSS, resulting in 20% better user engagement on both mobile and desktop platforms

## Technical Skills

**Languages:** Java , SQL , Mongoddb , React.js , HTML , CSS , SCSS , Express.js , Node.js , Tailwindcss , Javascript

**Developer Tools:** VSCode , Postman , Git , Github , Figma , Webflow , Wireframes

**Power Skills:** Blogging , Creative Writing , Efficient English
